PRODA
Maintain Organisation Devices

B2B Device is a Security Token that allows clinical software applications to communicate with Services Australia. This expires regularly and must be extended often.

1 In PRODA select the Organisations Tab

2 Select Health Service Incorporated

3 Expand the B2B Devices Select Existing Device

4 Verify Device details, Select Extend B2B Device Expiry

5 Confirm, Extend B2B Device Expiry

6 Make note and repeat before next expiry

**PRODA should notify you if the B2B Device is due to expire, dont leave it too late, or you will have to activate a new B2B and involve Telstra Health Support

B2B expires every 6 months, renew early, it allows Communicare to interact with Services Australia for MBS Claims, HPOS and AIR.
